## PROFESSIONAL SUMMARY

Aspiring Software Developer with strong practical knowledge in .NET, Angular, Node.js, and MongoDB through hands-on projects. Proficient in building full-stack web applications using modern technologies like RESTful APIs, responsive UIs, and data-driven dashboards. Completed a BCA and several real-world projects demonstrating both frontend and backend development skills. Looking to contribute and grow in an entry-level IT role.

## TECHNICAL SKILLS

- Languages: C#, JavaScript
- Frontend: HTML5, CSS3, Bootstrap, Angular (Basic)
- Backend: Node.js, Express.js, ASP.NET Core, ASP.NET MVC
- Database: MongoDB, SQL Server, MySQL
- Tools & Platforms: GitHub, Figma, Postman
- Concepts: REST API, CRUD Operations, Responsive UI, Object-Oriented Programming

## PROJECTS

### Expense Tracker Web App

Tech Stack: Angular, Node.js, MongoDB

- Built a full-stack personal expense tracking application
- Features include: user authentication (login/register), dashboard with charts, add/edit/delete expenses, category-based filters
- Created REST APIs and integrated Angular frontend with backend services
- Applied JWT for secure authentication and MongoDB for data storage

### Additional Backend API Work

- Worked on backend modules of a real estate platform
- Developed secure and scalable REST APIs using Node.js and MongoDB
- Contributed to features like property listing and user account management

## EDUCATION

Bachelor of Computer Applications (BCA)

GLA University, Mathura — 2022 – 2025

Bachelor of Commerce (B.Com)

Chaudhary Raghunath Singh Mahavidyalaya, Agra — 2019 – 2021

AAIP – Arena Animation International Program

Arena Animation, Agra — 2017 – 2019

## EXPERIENCE

2D Animator – Digitoonz Media & Entertainment Pvt. Ltd.

April 2019 – May 2021

- Created engaging visuals and UI animations for client projects
- Collaborated with developers and designers to deliver creative solutions
- Learned teamwork, deadline management, and user-focused design

### **Project :Subtitle Management System**

Tech Stack: .NET, C#, SQL Server, Bootstrap

- Developed a web-based system to manage and edit subtitles
- Implemented CRUD operations with SQL Server
- Built a responsive interface using Bootstrap and followed RESTful architecture

## CERTIFICATIONS

- The Complete 2024 Web Development Bootcamp – Angela Yu (Udemy)
- Learned HTML, CSS, JavaScript, Node.js, MongoDB
- Completed 5+ real-world projects with frontend and backend focus
