Education

MANGALAYATAN UNIVERSITY, ALIGRH   2021 – 2024
BCA (Bachelor of Computer Applications)   *ALIGRH, Uttar Pradesh*

* Deepened understanding of software development, API design, and database management, excelling in practical projects.

SKR Inter College, AGRA   2019 – 2021
ITI (Diploma)   *Agra, Uttar Pradesh*

* Graduated with distinction (89.4%). Gained a strong foundation in computer science, recognized for outstanding performance.

Experience

webintegratorz Technology   October 2024 - January 2025
Full Stack Developer   *Indore, Madhya Pradesh*

· Successfully delivered 5+ small-scale projects within 4 months, ensuring on-time delivery and maintaining high-quality standards in both frontend and backend development.
· Currently spearheading a large-scale project, focusing on architecting scalable solutions, integrating advanced features, and enhancing overall system performance.

Bhagwati Consultancy   March 2024 - October 2024
Frontend Developer   *Mumbai, Maharashtra*

· Led a cross-functional team to implement a feature using React and Redux, boosting user engagement by 20% in the first month.
· Spearheaded the development of dynamic KYC forms for Regpit Berlin, streamlining data collection and compliance processes.

Veecorp   Dec 2023 - March 2024
MERN Stack Intern   *Mumbai, Maharashtra*

· Designed and implemented responsive user interfaces with React.js and Material UI, leading to a 15% increase in user satisfaction scores, as measured by post-launch surveys.
· Spearheaded the adoption of Jira and Confluence, streamlining project tracking and communication. Engineered a fully-functional admin panel with comprehensive CRUD operations, increasing backend efficiency by 30%.

Projects

PROJECTS | *MERN STACK, AI, PYTHON*

- **Ad Performance Analyzer Agent — MERN Stack, AI Integration** :
- Built a web app to upload and analyze ad data, providing AI-driven performance insights and keyword optimization.
- Developed a **Node.js** backend with Express for CSV processing and a **React.js** frontend for seamless user interaction.
- Integrated **LangChain** with **OpenAI** to generate ad performance summaries and automate keyword updates.
- **Automation & Python Projects — Python, Selenium** :
- Developed a **LinkedIn Job Apply Bot** using **Python & Selenium**, automating job applications efficiently.
- Completed **100 Python projects in 100 days**, covering automation, data analysis, and web scraping.
- **Flipkart Ecommerce**: Designed and deployed a scalable RESTful API using Node.js and Express REST Framework, achieving a 30% improvement in data retrieval speed.
- **Open-Source**: Contributed to an open-source project on GitHub, collaborating with a global community.
