EDUCATION

05/2018 - 07/2021, Dehradun, Uttarakhand
Master of Computer Applications (MCA), Graphic Era Hill University

06/2015 - 06/2018 Dehradun, Uttarakhand
B.Sc. (H) Mathematics Doon University, Dehradun

PROJECTS

Anti-Piracy Plugin Development

- Developed and deployed specialized anti-piracy plugins using Python and XML for major clients including **Apple** and **Paramount**. These solutions efficiently scrape websites, identify unauthorized movie links, and automate the issuance of copyright notices. This directly contributed to protecting client intellectual property and significantly reducing online content piracy.

1010Discs

- 1010discs.com is an e-commerce platform built in Magento 2 that showcases and sells hundreds of golf discs and accessories. The website offers a comprehensive catalogue, user-friendly navigation, and various customization options to enhance the shopping experience for discs golf enthusiasts.

- Implemented payment gateway such as Stripe and Adobe Payment Services and customized them efficiently to suit the business logic. Which increased the revenue by 30%-40%

Royal Nation

- Royal Nation is an e-commerce platform also built in Magento 2 for selling sports equipment related to soccer, built in Magento 2 it features 6 stores like stingsoccerstore.com, tournamentseriesshop.com etc.
- Upgraded the site from Magento 2.4.3 to Magento 2.4.6-p6, also increased the PHP version from 7.3 to PHP 8.1 Increasing the site performance drastically and increasing the revenue by 25% to 30%

.

Learning Management System

- Engineered a robust Learning Management System (LMS) featuring course creation and quiz evaluation tools, created using PHP,
- MySQL, JavaScript, and Bootstrap; system now supports 150+ active courses and improves teacher evaluation efficiency by 40%.
