PROFESSIONAL SUMMARY

Aspiring Web / Full-Stack Developer with hands-on project experience in Django, ReactJs, and Python. Proficient in designing responsive applications and delivering optimized solutions,Strong foundation in SQL and data analysis with a focus on delivering scalable and efficient solutions.

SKILLS SUMMARY

- **Programming Languages**: Python, SQL
- **Web Technologies:** HTML, CSS, JavaScript
- **Frameworks&Libraries**: Django, ReactJs, Pandas, Numpy
- **Tools**: Excel, PowerPoint, SQLite
- **Platforms**: PyCharm, Jupyter Notebook, Visual Studio Code
- **Soft Skills**: Team Collaboration, Time Management, Problem-Solving, Adaptability

PROJECTS

Identification of Suicidal related content in twitter data flux

- Developed a suicide-related behavior detection system using Natural Language Processing (NLP) and a martingale framework to analyze Twitter data in real time.
- Achieved early identification of emotional distress through behavioral and text-based feature analysis, improving the accuracy of mental health risk prediction.

Real time personalized physiologically based stress detection

- Created a real-time stress detection system using Python and Django, analyzing physiological data such as heart rate and blood pressure.
- Applied machine learning algorithms (SVM, Random Forest) to achieve accurate stress prediction and improve reliability of health monitoring.

Tiffin Bites

- Designed an interactive Tiffin Ordering Web App using HTML, CSS, and JS, featuring a dynamic menu with search, quantity-based cart, and feedback system, demonstrating strong front-end skills, DOM manipulation, and responsive UI design.

Task Management

- Built a Task Management Web Application using Django,enabling secure user authentication and personal task handling.Integrated features like task creation,status tracking,file uploads,and CRUD operations.

EDUCATION

B.Tech in Computer Science & Engineering

Sri indu institute of Engineering & technology ,**Graduated**: 2024

CERTIFICATES

Python Full Stack Web Development Certification — Q-Spiders

Covered: Python, Html, Css, JavaScript, Sql, Django, ReactJS
