EXPERIENCE

SKILLDRIZE BY APSCHE | Summer Intern

Mar 2023 & July 2023

- Gained expertise in JavaScript, React, and Redux for building dynamic and responsive user interfaces. Implemented local storage for efficient data persistence, eliminating the need for a backend. Strengthened front-end development skills by designing an intuitive UI with HTML and CSS.

EXPOSYS DATA LABS | Intern

May 2022 & June 2022

- Developed Backend Services, implemented Triple DES encryption algorithm using Python, showcasing my cryptography skills.
- Understanding of real-world applications of encryption in secure file transmission, data privacy, and compliance with data security standards.

PROJECTS

FITMEASURE: FITNESS PERFORMANCE TRACKER Mar 2023 – Sep 2023

Built a fitness tracking app using JavaScript, React, HTML, and CSS to log and analyze fitness metrics such as food intake, triceps and biceps measurements, and exercise weights. Implemented local storage for persistent data management without requiring a backend.

IMAGE ENCRYPTION AND DECRYPTION SYSTEM (PYTHON, TRIPLE DES) May 2022 – Jun 2022

Developed a secure system for image encryption and decryption using Triple DES, enhancing data protection skills in cryptography, key management, and Python cryptography libraries.
