Education

- **Gayatri Vidya Parishad College of Engineering** — Kommadi, Visakhapatnam
  Bachelor of Technology - Information Technology; GPA: 8.89 — *2021-2025*
- **Narayana College** — Visakhapatnam
  Percentage: 97.3 — *2019-2021*
- **Sri Chaitanya School** — Kommadi, Visakhapatnam
  CGPA: 10

Skills Summary

- **Languages**: C++,C,python,Java
- **Frontend Technologies**: HTML, CSS, React.js,JavaScript
- **Database**: MySQL
- **Web Dev Tools**: Visual Studio Code, Git
- **Relevant Coursework**: Data Structures, Operating System, DBMS, Computer Networks
- **Familiar with**: LLM Evaluation , Pandas, Matplotlib, TensorFlow, NLP, OpenCV
- **Areas of Interest**: Software Development , Data Science,
- **Soft Skills**: Organization skills, Excellent team work skills

(Courses on C++, DBMS, Data Structures and Algorithms, Computer Networks)

Experience

- **Outlier – Contributed to improving LLMs by evaluating responses, designing prompts, and providing human feedback for fine-tuning and alignment.**:
- **Lead a cross functional team of 4 members to develop prototype of Dog Detterent.**:
- **Utilised version control systems(Git) to manage and track code changes collaboratively.**:

Projects

- **Regional Language Chatbot**:
  Developed a conversational AI chatbot for Telugu language using the mBERT architecture for accurate intent recognition and dialogue management
  Curated and preprocessed Telugu language datasets for training, enabling robust tokenization and response generation.
  Tech: Transformers(mBert), NLP, Pandas
- **ChatApp** :
  A web-based app where one can send and receive messages along with notifications.
  Tech: JS, Web Sockets
- **College Wiki**:
  Developed an interactive College Wiki for students to access study materials and resources.
  Implemented search functionality for easy navigation.
  Tech: HTML, CSS, Django, JS
- **Other Projects**:
  Emotion-Driven Interactive Response System: Built a facial recognition system to detect human emotions (e.g., happy, sad, angry) and generate context-aware responses.
  Tech: Python, OpenCV, TensorFlow, Keras, CNN, Emotion Recognition APIs
  Student-enrollment-Form: A web-based HTML form for student enrollment using JsonPowerDB as the database
  Static webpages
  Tech: HTML, CSS, JS

Certifications

- AWS Certificate in Machine Learning, Data Analytics, Machine Learning
- Introduction to Networks By Cisco Networking Academy

Volunteer Experience

- **Volunteer at YFS Club**
  Held a number of activities to discover, develop, and showcase young people's potential.
